ADVANTAGES OF IoTOnDemand

Free Software /Hardware Upgrades

One Time, Lifetime Cost (No Hidden Cost)

Fully Cloud Infrastructure

Free Tier 3 Support

All-In-One 3 Stage Advantage
1. Development
2. Staging
3. Production

Why Choose IoTOnDemand ?
1. To Provide Peace of Mind & Security to the Family.
2. Efficient Performance.
3. Ease of Usage & Seamless Customer Experience

US Approved Patent License

Buy Now

Easy Service Registration /Ticketing System Built into Mobile App

Only 7 Days to Go Live

Support from iOS, Android & Alexa

How to Videos Built into Mobile Application

IoTOnDemand A SECURED CLOUD PLATFORM

METHODS USED TO SECURE IoTOnDemand CLOUD PLATFORM

1. Data is handled by the vetted team of IoTOnDemand employees.

2. Data will be shared between IoTOnDemand and Respective Manufacturers only.

3. Integrity and Confidentiality of consumer data are promised by IoTOnDemand.

4. Built-in 2 factor Authentication to secure the data access.

5. All transmitted data is encrypted and safe from cyber-attacks.

6. The user needs to re-authenticate the device in case of a log out or change the device.

7. IoTOnDemand uses Over The Air (OTA) technology to update the firmware.

8. Hardware is FCC certified.

9. IoTOnDemand hardware and software are compliant with new California law which is security standards for IoT devices.

10. Time to time different parameters and analytics are run to help secure IoT devices.

11. A Firewall is enabled on the IoT device level to keep away the malicious viruses.

12. Health Check Scripts are used to test and make sure the device is working as expected.

13. IoTOnDemand provides free Tier 3 support to handle the most difficult support issues.

THE 3S COMMITMENT - SAFETY, SALES & SUPPORT

SAFETY:

IoTOnDemand is Committed to your Safety - Home Security, Personal Safety and Data Security are our Focus!

1. Safety sensors are Integrated in the Devices which Alert family Members and are Also Allow for Security Company Integration.
2. How-to Safely "Help Videos" are built into a Mobile Application.
3. Hazards such as Motor Burnout Alerts are built in.
4. One app is for multiple devices and multiple users.
5. Weather Safety Alerts and Other Safety Alerts are built into the Smart App.
6. Activity logs and Reboot logs are Available in the Smart App
7. Time-bound user access is supported. Also, custom levels of user access has Different Security levels like "Device owner, Family Member, Guest etc.
8. Device operation scheduling is built-in. Like Switch on light at Dusk.
9. In case of a Wi-Fi outage, the application will Auto Alert the user.
10. Built-in 2-Factor Authentication to Secure data access.

SALES:

IoTOnDemand is committed to help you in increasing stock valuation and profit with a fixed low price IoT Solution.

1. "Buy Now" - a robust e-commerce store is built into the app that enables your business for online sale.
2. The online store is completely customizable. For example-The Diwali App message and other sale events such anniversary and other celebrations can be sent to millions of customers at no cost to stimulate sales.
3. "Lifetime Usage of the Device calculator is built into App. This allows you to track the life-time of the Device and market are placement to the user when the device end of life is Approaching.
4. You can download the Sales and User data and have insight into your customer usage and buying Habits.

SUPPORT:

IoTOnDemand is committed to supporting you in taking care of your customers!

1. Built-in Easy Service Registration/Ticketing System. "Report a Problem"-Ticketing System is built into the App. Easy to use and allows end users to attach pictures or videos to support Tickets.
2. Free Tier-3 Support.
3. Two USA approved Patents for Non-Exclusive use.
4. iOS, Android, Google Home, Alexa, MQTT and IFTTT supported.
5. Fully Hosted Cloud Infrastructure.
6. Free Software and Firmware Upgrades at no extra cost.
7. Customizable application theme as per season or Festival.
8. Support for Multiple Regional languages - Upcoming Feature.
9. Support for Multiple Countries.
10. Basic Device Control and Health check scripts like Factory default, Wi-Fi Change, Reboot built-in the Smart App.
11. OTA-Over-The-Air is built-in into our Fabric.

IoT ENABLED
SMART FAN

CHOOSE A SOLUTION AS PER YOUR NEED FROM FOLLOWING CATEGORIES:

1. Smart Regulator R3204 with Infrared Remote for AC Based Motor Ceiling Fan using ESP32 Microcontroller.

2. Smart Fan Kit with Infrared Remote to control any AC Based Motor Ceiling Fan based on ESP 32 or ESP 8266 Micro Controller

3. Control Plate C3204 with Infrared Remote for BLDC Ceiling Fan using ESP32 Microcontroller.

IoT ENABLED SMART FAN REGULATOR R3204

WHAT IS IoT ENABLED SMART REGULATOR R3204 ?

R3204 is a touchscreen IoT speed regulator for AC motor celling fans. R3204 is capable of converting any AC ceiling fan to IoT. The ceiling fan can be operated with a Mobile Phone or Touch Screen.

IoT ENABLED SMART REGULATOR R3204 FEATURES -

1 Auto ON/OFF with Smart Timer

2. Auto Speed in Wave/Breeze Mode

3. Auto ON/OFF with Dusk/Dawn

4. Integrated MPU to Save Energy

5. Wi-Fi Enabled

6. OTA Compatible

7. Buy Function for Consumer

8. End-User Database

9. Free Hardware and Firmware Upgrades

10. Infrared Remote

11. End to End Turnkey Solution

12. Free Tier 3 Support

13. Fully Hosted Bigdata Cloud Platform

14. Power & Appliance Usage Reporting

15. Compatible with iOS, Android, Alexa & IFTTT

16. Product Life Cycle Detection

17. Patent No 15/292,381 and Patent No 15/356,244 for Non-Exclusive Usage

IoT ENABLED SMART INTELLIFLOW™ FAN KIT

WHAT IS IoT ENABLED SMART INTELLIFLOW™ FAN KIT ?

IoT Enabled Smart IntelliFlow™ Fan Kit is Voice controlled, Smart App Controlled, and comes with a Remote. It will fit inside the canopy of the fan and you can access your fan via SmartBharatBest   Smart App From anywhere as it is Wi-Fi enabled, Set different modes and speed as per your comfort.

IoT ENABLED SMART INTELLIFLOW™ FAN KIT FEATURES -

1. Auto ON/OFF with Smart Timer
2. Auto ON/OFF with Dusk/Dawn
3. Integrated MPU to save energy
4. Routine Schedule
5. Wi-Fi Enabled
6. Buy Function for Consumer
7. 100% Warranty Details
8. End to End Turnkey Solution
9. OTA Enabled
10. Bluetooth Enabled
11. Dual Core SOC
12. Multi_Languages
13. Multiple Themes
14. Product Life Cycle Detection
15. Compatible with iOS, Android, Alexa & IFTTT
16. Built in Easy Service Registration Ticketing System
17. Power and Appliance Usage Reporting
18. Child Profile
19. Built-in 2-Factor Authentication
20. Can work without Wi-Fi with IR Remote
21. Weather Safety Alerts
22. Data Privacy
23. Both Log Activity and Reboot Logs are available in the SmartBharatBest App
24. Free Firmware Upgrades

IoT ENABLED SMART FAN (BLDC) C3204

WHAT IS IoT ENABLED SMART FAN (BLDC) C3204 ?

IoT Enabled Smart Fan (BLDC) is Wi-Fi Enabled. The appliance can be controlled worldwide. Users can operate it through voice assistants such as Alexa.

IoT ENABLED SMART FAN KIT C3204 FEATURES -

1. Auto ON/OFF with Motion Detection

2. Auto ON/OFF with Low Light Detection

3. Auto ON/OFF with Dusk/Dawn

4. Auto ON/OFF with Smart Timer

5. Auto Reverse Rotation

6. Auto Speed in Wave/Breeze Mode

7. Auto Burnout Motor Detection

8. Audio Alert System

9. Product Life Cycle Detection

10. Infrared Remote

11. Fire and Smoke Detector

12. Emergency Alert System

13. Temperature and Humidity Detector

14. Integrated MPU to Save Energy

15. Measure Power Consumption

16. Power & Appliance Usage Reporting

17. Compatible with iOS, Android, Alexa & IFTTT

IoT ENABLED SMART AIR COOLER

WHAT IS IoT ENABLED SMART COOLER?

IoT Enabled Smart Cooler is a Smart Choice to Maintain Humidity and Room Temperature with Advanced Features on your Fingertips than Conventional Cooler. Users can Operate it through voice Assistants such as Alexa.

IoT ENABLED SMART AIR COOLER FEATURES -

1. Auto ON/OFF with Motion Detection
2. Auto ON/OFF with Low Light Detection
3. Auto ON/OFF with Dusk/Dawn
4. Auto ON/OFF with Smart Timer
5. Auto Speed in Wave/Breeze Mode
6. Auto Burnout Motor Detection
7. Auto Speed Control with Cooling Level
8. Auto Water Drain
9. Auto Swing Controller
10. Auto Smart Water Level Detection
11. Audio Alert System
12. Infrared Remote
13. Product Life Cycle Detection
14. Fire and Smoke Detector
15. Emergency Alert System
16. Temperature and Humidity Detector
17. Integrated MPU to Save Energy
18. Measure Power Consumption
19. Power & Appliance Usage Reporting
20. Compatible with iOS, Android, Alexa & IFTTT

IoT ENABLED SMART INTELLICHIMNEY™

WHAT IS IoT ENABLED SMART INTELLICHIMNEY™ ?

IoT Enabled Smart IntelliChimney™ provides smoke-free and healthy cooking experience, with Auto ON/OFF and Smart Cleaning System along with other Smart Features to make your life easier and secure. Now control your Chimney from a single click by using Mobile Application.

IoT ENABLED SMART INTELLICHIMNEY™ FEATURES-

1. Auto ON/OFF with Smart Timer
2. Auto ON/OFF with Dawn/Dusk
3. Integrated MPU to Save Energy
4. Wi-Fi Enabled
5. OTA Compatible
6. Buy Function for Consumer
7. End-User Database
8. Multi-Language
9. Child Lock
10. End to End Turnkey Solution
11. Free Tier 3 support
12. Power & Appliance Usage Reporting
13. Compatible with iOS, Android, Alexa & IFTTTT
14. Air Purification (Starting 4 AM >The Chimney Fan will run for 10 minutes > every 6 hours > at High Speed)
15. Fully Hosted Bigdata Cloud Platform
16. Product Warranty
17. Patent No 15/292,381 and Patent No 15/356, 244 for Non-Exclusive Usage
18. Networking IoT Hardware Design and Schematic as a Proof of Concept
19. 7 Days Delivery Guarantee
20. No Need To Create (DEV / STG / PROD) Environment
21. Easy Service Registration / Ticketing System Built into the Mobile App
22. How-To Video's For User Experience are Built into the Mobile App
23. We Have More Than 20 Designs And We Can Help In Creating Those Products
24. Cloud charges lifetime and no other hidden cost
25. Free Hardware and Firmware Upgrades

IoT ENABLED SMART INTELLIWATERHEATER™

WHAT IS IoT ENABLED SMART INTELLIWATERHEATER™ ?

IoT Enabled Smart IntelliWaterHeater® is Wi-Fi controlled. It also sends an Alert when the Water has reached the set temperature with the Smart dry Heating Detection System.

IoT ENABLED SMART INTELLIWATERHEATER™ FEATURES -

1. Audio Alert System
2. Auto ON/OFF with Smart Timer
3. Smart Dry Heating Detection
4. Smart Cut-Off
5. Smart Temperature Control
6. Product Life Cycle Detection
7. Integrated MPU to Save Energy
8. Wi-Fi Enabled / OTA Compatible
9. Emergency Alert System
10. Buy Function for Consumer
11. End-User Database
12. Child Lock / Multi-Language
13. End to End Turnkey Solution
14. Free Tier 3 support
15. Infrared Remote
16. Product Warranty
17. Fire & Smoke Detector
18. Measure Power Consumption
19. Power & Appliance Usage Reporting
20. Compatible with iOS, Android, Alexa & IFTTT
22. Fully Hosted Bigdata Cloud Platform
23. Patent No 15/292,381 and Patent No 15/356,244 for Non-Exclusive Usage
24. Networking IoT Hardware Design and Schematic as a Proof of Concept
25. 7 Days Delivery Guarantee
26. No Need to Create (DEV / STG / PROD) Environment
27. Easy Service Registration/Ticketing System Built into the Mobile App
28. How -To Video's For User Experience are Built into the Mobile App
29. We Have More Than 20 Designs and we can help in Creating Those Products
30. Cloud charges lifetime and no other hidden cost
31. Free Hardware and Firmware Upgrades

IoT ENABLEDR
SMART INTELLISWITCH™

WHAT IS IoT ENABLED SMART INTELLISWITCH™ ?

IoT Enabled Smart IntelliSwitch™ is a Smart Switch panel to control your room and lets you easily turn all your lights and fan ON and OFF right from your phone. It comes with 5 - point touch buttons to control lights with 1 socket and Fan controller ON/OFF & Speed Control. Users can operate it through voice assistants such as Alexa.

IoT ENABLED SMART INTELLISWITCH™ FEATURES -

1. 5-Point touch buttons with 1 socket and fan controller ON/OFF and Speed Control
2. Wi-Fi Enabled
3. Voice Controlled
4. Measure Power Consumption
5. Routine Schedule
6. Auto ON/OFF with Smart Timer
7. Auto ON/OFF with Dusk to Dawn
8. Integrated MPU to Save Energy
9. 100% Warranty Details
10. OTA Enabled
11. Compatible with iOS, Android, Alexa & IFTTT
12. Log activity and reboot logs are available in the Smart App

13. Product Life Cycle Detection
14. Buy Function for Consumer
15. End to End Turnkey Solution
16. Bluetooth Enabled
17. Dual Core SOC
18. Multi-Languages
19. Multiple Themes
20. Built-in-Easy Service Registration Ticketing System
21. Child Profile
22. Built-in-2 Factor Authentication

IoT ENABLED SMART AIR CONDITIONER

WHAT IS IoT ENABLED SMART AIR CONDITIONER?

IoT Enabled Smart Air Conditioner is Wi-Fi Controlled. It can be Auto ON/OFF with Smart Timer. Users can Operate it through Voice Assistants such as Alexa.

IoT ENABLED SMART AIR CONDITIONER FEATURES -

1. Auto ON/OFF with Smart Timer

2. CFC Gas Detection in case of Leakage

3. Motion Detection

4. Fire & Smoke Detection

5. Auto Service Alert

6. Auto Speed Control with Cooling Level

7. Sleep Mode

8. Temperature and Humidity Detector

9. Infrared Remote

10. Product Life Cycle Detection

11. Power & Appliance Usage Reporting

12. Integrated MPU to Save Energy

13. Measure Power Consumption

14. Power & Appliance Usage Reporting

15. Compatible with iOS, Android, Alexa, & IFTTT

IoT ENABLED
SMART FURNITURE

WHAT IS IOT ENABLED SMART FURNITURE?

IoT Enabled Smart Furniture comes with 4 Port Smart IntelliSwitch Systems to ensure the user can access their necessary gadgets at the comfort of their Furniture. It is Equipped with an in built Electronic Pest Repeller and LED lightings that can be controlled via IoTOnDemand Smart App.
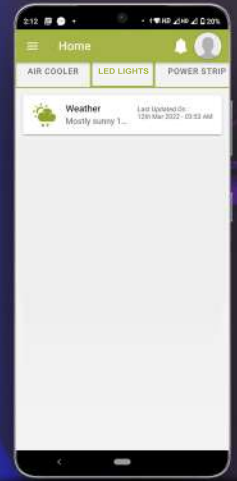

IoT ENABLED SMART FURNITURE FEATURES -

1. Auto ON/OFF with Motion Detection

2. Auto ON/OFF with Low Light Detection

3. Auto ON/OFF with Dusk/Dawn

4. Auto ON/OFF with Smart Timer

5. Fire & Smoke Detector

6. Temperature & Humidity Detector

7. 4 Port Power Plug

8. Infrared Remote

9. LED Lights on Furniture

10. Emergency Alert System

11. Measure Power Consumption

12. Power & Usage Appliance Report

13. Compatible with iOS, Android, Alexa
    & IFTTT

14. Smart Dimmer Feature

15. Built-In Electronic Pest Repeller

IoT ENABLED SMART LED LIGHTS

WHAT IS IoT ENABLED SMART LED LIGHTS ?

IoT Enabled Smart LED lights are the lighting system that is connected to Wi-Fi. The appliance can be monitored and controlled from any centralized system or via a cloud. Users can operate it through voice assistants such as Alexa and Google Home.

IoT ENABLED SMART LED LIGHTS FEATURES -

1. Auto ON/OFF with Motion Detection

2. Auto ON/OFF with Low Light Detection

3. Auto ON/OFF with Dusk/Dawn

4. Auto ON/OFF with Smart Timer

5. RGB Color Schemes

6. Product Life Cycle Detection

7. Integrated MPU to Save Energy

8. Infrared Remote

9. Measure Power Consumption

10. Power & Appliance Usage Reporting

11. Compatible with iOS, Android, Alexa, Google Home & IFTTT

12. Smart Dimmer Feature

IoTOnDemand

PEST REPELLER

amazon alexa
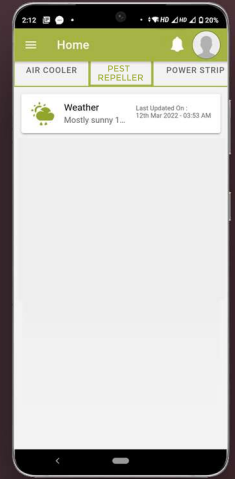

IoT ENABLED SMART PEST REPELLER

WHAT IS IoT ENABLED SMART PEST REPELLER ?

Take pest controlling to the next level with IoT Enabled Smart Pest Repeller. Appliance can be controlled by All in 1 Mobile App for several pests.

IoT ENABLED SMART PEST REPELLER FEATURES -

1. No Harmful Chemicals

2. Safe for Pets & Humans

3. Litter Free

4. Noiseless

5. Smart LED Indicator

6. Auto ON/OFF with Smart Timer

7. 21 in 1 Smart Pest Repeller

8. Product Life Cycle Detection

9. Infrared Remote

10. Cost-Effective as Consumes Less Electricity (for Basic Standalone Model)

11. Applications - Home, Office, Go-downs, Food and Pharmaceuticals Industries, etc.

12. Bio-Compatible and Eco-Friendly

13. Compatible with iOS, Android, IFTTT & Alexa
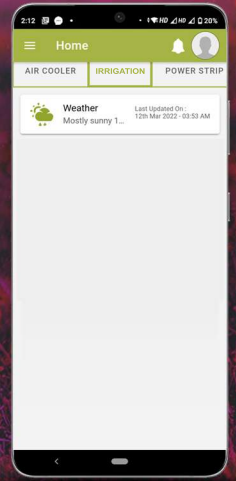

14. 22-85 KHz frequency of Repelling

IoT ENABLED SMART IRRIGATION SPRINKLER

WHAT IS IoT ENABLED SMART IRRIGATION SPRINKLER?

Take control of your irrigation system by analyzing soil moisture and weather condition. A smart irrigation sprinkler system does manage multiple zones. Users can operate it through voice assistants such as Alexa.

IoT ENABLED SMART IRRIGATION SPRINKLER FEATURES -

1. 24 Zones Smart Irrigation Sprinkler

2. Auto Smart Weather Detection

3. Auto Programmed Rain Delay

4. Auto ON/OFF with Dusk/Dawn

5. Auto Notifications on Faulty Valves or Electrical Wiring Faults

6. Auto Soil Moisture Detector

7. Audio Alert System

8. Product Life Cycle Detection

9. Integrated MPU to Save Energy

10. Quick-Water Sprinkle Option to Freshen Up Your Yard Before Guests Arrive

11. Ability to Create Your Program Schedules with Water Restrictions in your Area

12. Temperature and Humidity Detector

13. Detailed Water Usage Reporting

14. Compatible with iOS, Android, Alexa & IFTTT

15. Complies with EPA Water Sense Certification

IoT ENABLED SMART CLOTH WASHER

WHAT IS IoT ENABLED SMART CLOTH WASHER?

IoT Enabled Smart Cloth Washer comes with Smart Operation and 20 Unique Smart Features that can be operated through Mobile Application with Amazon & Alexa.

IoT ENABLED SMART CLOTH WASHER FEATURES -

1. Auto Motor Burnout Detection
2. Auto ON/OFF with Smart Timer
3. Auto Emergency Alert in Case of any Adverse Condition
4. Auto Product Service Cycle Detection
5. Auto Smart Cleaning System
6. Fire and Smoke Detector
7. Smart Operation
8. Touch Panel
9. Audio Alert System
10. Child Lock

11. Infrared Remote
12. Delay Start/End
13. End of Cycle Chime
14. Water Saver Option
15. Start/Pause Function
16. Energy-Saving - Auto Display Off after 5 minute
17. Pre-Wash Function
18. Automatic Door Lock in Wash
19. Soak Function
20. Extra Rinse
21. Customized Washing Cycle

IoT ENABLED SMART WATER LEVEL TANK DETECTOR

WHAT IS IoT ENABLED SMART WATER LEVEL TANK DETECTOR ?

IoT Enabled Smart Water Level tank Detector is a Smart choice to save water when we have a scarcity of freshwater. Users can set up timer and percentage levels of Water in the tank using IoTOnDemand Smart App.

IoT ENABLED SMART WATER LEVEL TANK DETECTOR FEATURES -

1. Auto ON/OFF with Smart Timer

2. Smart Scheduler

3. Smart Percentage Level of Water Tank

4. Preset Tank Level Alarm

5. LED Light Indicator

6. Real-Time Water Flow

7. Alert for Tank Cleanup

8. Auto Odor Sensor

9. One Device Can Handle Multiple Water Tanks And Motors

10. Can Be Filled At Preset Water Tank Level

11. Product Life Cycle Detection

12. Power & Appliance Usage Reporting

13. Integrated MPU to Save Energy

14. Measure Power Consumption

15. Power & Appliance Usage Reporting

16. Compatible with iOS, Android, Alexa & IFTTT

IoT ENABLED SMART HUMIDIFIER

WHAT IS IoT ENABLED SMART HUMIDIFIER ?

IoT Enabled Smart Humidifier will keep the Humidity at desired level with Auto Humidity Level Setup. It is Wi-Fi controlled and user can operate it through Voice Assistants such as Alexa.
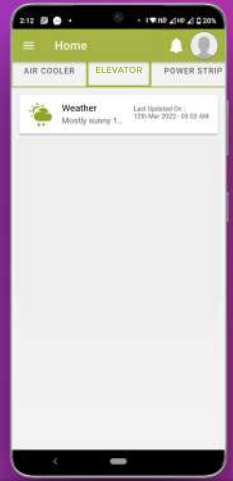

IoT ENABLED SMART HUMIDIFIER FEATURES -

1. Auto ON/OFF with Smart Timer

2. Auto Humidity Level Setup

3. Air Purification Function

4. Auto Water Level Detector

5. Auto Clean Function

6. Smart LED Indicator

7. Product Life Cycle Detection

8. Infrared Remote

9. Power & Appliance Usage Reporting

10. Measure Power Consumption

11. Compatible with IOS, Android, Alexa & IFTTT

IoT ENABLED
SMART ELEVATOR

WHAT IS IoT ENABLED SMART ELEVATOR?

IoT Enabled Smart Elevator works on Preset Smart Scheduler
with Auto Maintenance Alert System. Smart Elevator move with Faster,
Easier and Enhanced Energy-Efficiency as opposed to the conventional ones.

IoT ENABLED SMART ELEVATOR FEATURES -

1. Auto Set Floor No. with (Destination dispatch Technology)

2. Smart Scheduler

3. Smart Timer

4. Auto Fan ON/OFF

5. Auto Light ON/OFF

6. Emergency Alert System

7. Automatic open for Next Operation for Ground Floor

8. Auto Burnout Motor Detection

9. Motor Usage Report

10. Auto Maintenance Alert System

11. Elevator Logs

12. Product Life Cycle Detection

13. Power & Appliance Usage Reporting

14. Integrated MPU to Save Energy

15. Measure Power Consumption

16. Compatible with iOS, Android, Alexa & IFTTT

IoTOnDemand
"Many Devices One Solution"

IoTOnDemand CLOUD PLATFORM

- IoTOnDemand Cloud Platform is a turnkey solution for all electric & electronic device manufacturers/OEMs, to make all these devices IoT enabled.

- IoTOnDemand Cloud Platform is a high-quality comprehensive solution at a fixed & reasonable cost.

- IoTOnDemand Cloud Platform service offers one time, lifetime cost. Unlike other IoT service providers, there is no variance or hidden costs to this amount.

- A guaranteed 7 days delivery, to provide you & your consumers the control of all your device at your fingertips, on demand.

- IoTOnDemand Cloud Platform service will be available at no cost for not-for profit organizations, hospitals and universities.

- IoTOnDemand will provide a "Networking IoT Hardware" design schematic prototype. You can source the hardware board at no profit from IoTOnDemand or source the board yourself.

WHY CHOOSE US ?

- APP-CONTROLLED (ANDROID AND iOS)
- FULLY INTEGRATED WITH ALEXA, AND IFTTT (VOICE CONTROLLED)
- SEAMLESS Wi-Fi ENABLED
- OVER THE AIR (OTA) FIRMWARE UPGRADE CAPABILITY
- POWER AND APPLIANCE USAGE REPORTING
- FREE HARDWARE AND FIRMWARE UPGRADES
- FULLY HOSTED BIG-DATA CLOUD PLATFORM
- CUSTOM MOBILE APPLICATION
- END TO END TURNKEY SOLUTION
- BUY NOW/E-COMMERCE STORE
- END USER DATABASE
- PRODUCT LIFE CYCLE DETECTION
- PATENT NO 15/292,381 AND PATENT NO 15/356,244 FOR NON-EXCLUSIVE USAGE
- INTEGRATED MPU TO SAVE ENERGY
- MEASURE POWER CONSUMPTION
- EASY SERVICE REGISTRATION/TICKETING SYSTEM BUILT INTO THE MOBILE APP
- HOW-TO VIDEO'S FOR USER EXPERIENCE ARE BUILT INTO THE MOBILE APP
- FREE MARKETING MATERIAL CREATION (VIDEOS AND BROCHURE)
- FREE TIER-3 SUPPORT
- 7 DAYS DELIVERY GUARANTEE
- NO NEED TO CREATE (DEV/STG/PROD) - ENVIRONMENT
- WE HAVE MORE THAN 20 PRODUCT DESIGNS AND WE CAN HELP IN CREATING THOSE PRODUCTS
- ONE TIME, LIFETIME COST WITH NO HIDDEN CHARGES
- WE SUPPORT IR TECHNOLOGY
